

Compilation of Vaccine Research

This document is a compilation of some of the research I gathered up through 2020 on Vaccines. By all means, please do more research on your own, as I have not covered everything, this is just an intro. Don't be afraid to ask the questions and do your own research. There is a lot more info out there, and I encourage you to critically think and take this further. When doing your research, use Duck Duck Go search engine, as they do not spy on you. Unfortunately at the time of this writing, DuckDuckGo is now using the same search guides as Google, as the truth websites are not coming up in searches as they used to. There is currently a lawsuit against Google regarding this censorship.

It's time everyone became Vaccine Informed. It seems the media has divided us into pro-vaccine vs anti-vaccine. But what is Anti-Vax? It is the description that the pharmaceutical/vaccine companies and media have labeled the mothers and fathers (and people who know these families) who listened to their doctors and the media that they needed to give vaccines to their baby/child for them to be healthy and not die from "communicable diseases" which are really curable viruses, and whose baby/child had an adverse reaction to the vaccines which resulted with many horrible side effects such as eczema on parts or over the whole body of their baby, as well as some who became non-communicable, started having seizures, stopped eye contact, became diagnosed with autism, or died from the vaccine. These were all parents that believed in the herd immunity from vaccines, and that vaccines saved lives, until it ruined their own child's life. These parents, these "anti-vaxers" are people who are sharing their experience, their results of looking into the truth about vaccines, and who are being villainized for it. If parents informed us that a car seat didn't work to protect their child, you bet the car seat would be taken off the market immediately, and people would be returning faulty car seat. The car seat company doesn't want to get sued, and parents don't want to put their child in danger...but vaccine manufacturers cannot be sued due to a 1986 bill that Ronald Reagan signed into law that protects the vaccine makers. Instead the government set up a vaccine injury court that our tax dollars pay for....and has since the end of 2019, paid out over 4 BILLION dollars for families with vaccine damaged or children who have died from the vaccines. Less than 1% of the vaccine injured children are reported to the vaccine injury court. There were hardly any vaccine injured children, or SIDS accounts during the Covid-19 lockdown, due to the pediatric visits major decline. Many nurses reported on this. Coincidence?

Why isn't the media reporting on this? Why is this allowed to happen? I hope to answer those questions and more...

Following are links to interviews with Doctors, scientists, activists, whistleblowers, as well as links to medical reports and studies, research suggestions, and commentary from my own research.

There is a lot of information that the mainstream media does not share. There are 6 companies that own all the networks in the USA. Their biggest advertising contributor's (where their money comes from to pay for the shows and the news) is the pharmaceutical industry, (drugs and vaccines) the Chemical Industry (Monsanto and Bayer) and the Oil companies. You can understand, I'm sure, the conflict of interest for

the news outlets to report the truth about these companies' (that fund them) products. Many journalists have been fired for telling the truth, unfortunately. Here is a youtube clip: <https://www.youtube.com/watch?v=tcjzdoiL0j4> journalists fired for telling the truth about Monsanto and GMO's. This was over ten year ago, but still very relevant. Companies that sponsor the news will not allow the news to report on them.

Also, look up Operation Mockingbird. Where the CIA tells the Mainstream media what to say. Here is a quick link of all stations owned by the 6 companies saying the same thing. <https://www.bitchute.com/video/lgay2Mmax8ht/> Mainstream media has not been reporting the truth for a very long time.

Not only does the mainstream media not report on the truth about vaccines, social media also censors the truth, and the big tech companies like Google and Youtube have removed the truth from their searches, and links have been deleted from Youtube, Facebook and Instagram. I have had to look up new web pages to replace some of the links that have been removed.

Back to vaccines....If you look at the history of disease and the start of vaccines, you can see that the spread of disease and death lowered significantly once personal hygiene, washing hands and indoor plumbing....and healthy eating became the norm in the Western civilization. Here are some charts that document this: This chart is for the Measles: https://www.med.uottawa.ca/sim/Data/Images/Measles_decline.gif and another chart with multiple diseases: <http://visionlaunch.com/wp-content/uploads/2015/12/vaccine-charts-4.jpg> another chart: <https://vactruth.com/wp-content/uploads/2013/08/disease-graph.jpg> and another chart: <http://visionlaunch.com/wp-content/uploads/2016/01/vaccine-us-deaths-1900-1965.jpg>

There has been controversy with vaccines from the beginning when they were first introduced in the late 1800's, because of injury and death, even back then. In the early 1900's a famous doll, Raggedy Ann, became an iconic symbol for vaccine induced injury and death, when the creator's 13 year old daughter died a painful death after receiving a routine small pox vaccination at school, *which was given without parental consent*. Here is a link :<https://www.thelibertybeacon.com/forbidden-history-did-you-know-that-raggedy-ann-is-an-iconic-symbol-for-vaccine-induced-injury-and-death/>

Variety of articles/website: <https://vactruth.com/>

Did you know that we can't sue the vaccine makers or doctors that inject the vaccines into our loved ones if they are injured or die from the vaccine? On November 14, 1986, President Reagan signed the National Childhood Vaccine Injury Act of 1986 into law, because the vaccine companies told Reagan and congress that they couldn't continue making and selling vaccines anymore due to the payouts they had to give, due to harm their vaccines were doing to children. So Reagan, believing vaccines were necessary, signed the first no-fault federal vaccine injury compensation program, which would be an alternative to a lawsuit against vaccine manufacturers and pediatricians. That

means that if you or your child is damaged or dies from the vaccines, you cannot sue the manufacturers who made it, or doctors who administered it. Can you imagine if your car, or child's car seat malfunctioned and you couldn't sue? This is why there are so many items that are recalled, so they don't get sued. But if an industry has a safe guard against being sued, what's to motivate them to make it safe?

When President Reagan signed this NCVIA into law, he also created the Federal Vaccine Court, which has paid out OVER 4 Billion dollars (by 2019) to families for obvious serious injury and death from vaccines.

<https://www.supremecourt.gov/opinions/10pdf/09-152.pdf> Where does this money come from? Our taxes! It does not come from the company that made the vaccine, and not the doctor that administered it. Also, only 1% of those injured by vaccines are actually awarded money from vaccine injury.

Supreme Court has ruled vaccines "unavoidably unsafe".

What is in the vaccines:

Toxic Ingredients include formaldehyde (known carcinogen), aluminum (known neurotoxin), Thimersol (mercury, known carcinogen and known neurotoxin), aborted fetus cells (WI-38, & MRC-5 both human cells from aborted babies), Polysorbate 80 (known carcinogen that stunts brain development) Fetal Bovine Serum (blood harvested from baby cows), MDCK (dog kidney cells) Emryo cell culture (baby chickens), Human Albumin (GMO-human DNA inserted into yeast), MSG (known neurotoxin), Acetone (nail polish remover), Vero Cells (monkey kidney cells or a "porcine" pig virus), Yeast, Milk, Eggs (known allergens), source:

<https://www.cdc.gov/vaccines/pubs/pinkbook/downloads/appendices/b/excipient-table-2.pdf>

When vaccines were tested, glyphosate, which is the main ingredient in Round Up Ready pesticide, was also found to be an ingredient in these vaccines. All of these above ingredients are toxic chemicals that we would never give to our children to eat. In fact the government tells us not to, because these are too toxic.....but we are encouraged to inject these toxins into our children and ourselves? Here's the CDC's website listing some of their ingredients: <https://www.cdc.gov/vaccines/vac-gen/additives.htm>

Mercury poisoning and autism, it isn't a coincidence:

There are no adequate safety studies that get to the truth that these vaccines are save! There is no support, there is no accountability, there is a lack of double blind studies. What lawyer would be okay with that?

How many vaccines is too many? Adults who do not have young children have no idea that the vaccine schedule has increased tremendously, over 500% Here's a chart: comparing USA doses between generations: 1962 – 5 doses, 1983 – 24 doses, 2017 – 72 doses <https://www.facebook.com/learntherisk/posts/2142169509161601> Is there any wonder why there are so many autistic and sick children now?

Understand that there is a revolving door between CDC employees, who are supposed to be "saving lives and protecting people" and the pharmaceutical companies such as Merck's vaccine division. Also, the CDC owns 22 vaccines patents. <https://www.march-against-monsanto.com/the-cdc-is-a-for-profit-corporation-owning-more-than-50-different-vaccine-patents/> (this site and others have been removed during their 2020 censoring of truth and google has removed and countered this info) They are making money on some of these vaccines.

Some history:

The pharmaceutical industry is using the same tactics that the tobacco industry and the GMO industry have used. Can you imagine if they made smoking tobacco mandatory??? We all know the tactics and lies they told....it finally came out in court and their top secret papers were publicized, "4 out of 5 doctors recommend smoking"....and they do the same thing with vaccines....because the doctors are taught by the pharmaceutical companies. Anyone who looks into this can find the truth....although Google and Facebook and Twitter are now making it harder to share this information. Why? If vaccines actually worked, why would you need to make them mandatory? They keep blaming the unvaccinated, but the recent school and navy ship were 100% vaccinated (2019). <https://www.healthnutnews.com/u-s-navy-acknowledges-mmr-vaccine-caused-viral-mumps-outbreak/> If people just open their eyes...and start thinking for themselves...

Fully Vaccinated Children Actually Spreading Measles – And the Government Knows It: <http://healthimpactnews.com/2019/fully-vaccinated-children-actually-spreading-measles-and-the-government-knows-it/>

As mentioned before, Vaccine companies have no liability since the National Childhood Vaccine Injury Act of 1986 was signed into law. That means when you or your child are damaged by vaccines, you cannot sue them or your doctor. Instead, you have to go through a secret court, the vaccine injury court, that our tax dollars pay out, <https://www.fairwarning.org/2018/12/vaccine-court-pays-billions/>

Most that apply for the vaccine injury court are refused, and most who have been injured don't even know about the vaccine court, as most doctors do not inform their patients of this. Only 1% of those damaged by vaccines go to the vaccine court.

From 2004 to 2014 zero people in the US died from contracting measles, according to the CDC. During the same time, 108 people died from the MMR vaccine, according to The Vaccine Adverse Event Reporting System, (VAERS). A 2011 study conducted by the Ottawa Hospital Research Institute, found that 1 in 168 babies had emergency room visits within 4 to 12 days after their 12-month MMR vaccination and that several children died during the study. The number of deaths was not disclosed. 1 in 168 is a lot higher than one in a million vaccine injury risk that parents are told about, isn't it? Are you aware the CDC holds 50 patents on vaccines and sells 5 Billion dollars a year worth of vaccines? (The link to this has been removed and counter links have been added

during the disinformation of 2020) Are you aware that Mercks' package insert on the MMR vaccine list death as only one of a dozen of possible side effects? Read a vaccine insert. The US congress has ruled vaccines as "unavoidably unsafe".

Vaccine safety studies are almost always conducted by the vaccine manufacturers and that none of the vaccines on the childhood schedule were tested against the true inert placebo. They were tested against an older vaccine or an adjuvant such as aluminum. Are you aware that pharmaceutical drugs under the FDA are safety tested for an average of 4-5 years prior to licensing? Vaccines are tested on average for 4-5 days vs 4-5 Years. Are you aware that Harvard Pilgrim Hospital study funded by Health & Human Services in the US revealed that less than 1% of vaccine injuries are reported? This means that 99% of vaccine adverse reactions are not reported or acknowledged. Are you aware that the US vaccine injury compensation program has paid out more than 4 billion dollars due to vaccine injury and death? PLANDEMIC: INDOCTORNATION:

<https://plandemicseries.com/>

This was a personal message to me:

Salem Pearson-Thorup, Del Bigtree said that he and Mr. Kennedy found a document that showed that decades ago a doctor (a pro vaccine one, mind you) had gone over to Africa and was doing a vaccination campaign with the DTP. He was very specific about who he'd administer it to, because he was following the actual contraindications from the manufacturer's insert. So, he went through each village and group and whatever children fit the criteria got the shot. While they did this, they were also collecting tons of data, on all the children they looked at-- those who got the vaccine AND those who didn't. When they were done, he was looking over the numbers and realized he had vaccinated just about 50% of the children he'd collected data for. This good doctor was not afraid of the data, because he believed the data would support that vaccines are good.

So, he decided to turn it into a vaccinated vs unvaccinated study. They went back and monitored what happened with all these children. Their data showed that the DTP, while it appeared to reduce the amount of diphtheria, tetanus and pertussis among the vaccinated group, actually increased OVERALL MORTALITY 5 TIMES in the group VACCINATED WITH THE DTP!!!

Considering that's the most widely used vaccine in the world, Mr. Bigtree and Mr. Kennedy decided to petition various organizations, including WHO, to cease issuing that vaccine EVERYWHERE at least until things could be studied further and changes made because this study by the good doctor was so damning.

They ignored the petition. So, Del and Bob wrote letters to individual heads of state letting them know about this landmark study and told them to not let their children be murdered anymore.

AND THAT'S WHEN WHO DECIDED TO SAY THAT NOT VACCINATING WAS ONE OF THE TOP GLOBAL HEALTH THREATS!

Salem Pearson-Thorup He did a lecture in, I think Idaho. My friend recorded it live, but she didn't share it publicly so I'm not sure how to share it with you. I wonder if he talks about it on his show.

Testimonial by Iris Figueroa, May 25, 2017

I gathered all vaccine ingredients into a list and contacted **Poison Control**. After intros and such, and asking to speak with someone tenured and knowledgeable, this is the gist of that conversation.

Iris Figueroa: My question to you is how are these ingredients categorized? As benign or poison? (I ran a few ingredients, formaldehyde, Tween 80, mercury, aluminum, phenoxyethanol, potassium phosphate, sodium phosphate, sorbitol, etc.)

Poison Control: Well, that's quite a list... But I'd have to easily say that they're all toxic to humans... Used in fertilizers... Pesticides... To stop the heart... To preserve a dead body... They're registered with us in different categories, but pretty much poisons. Why?

Iris Figueroa: If I were deliberately to feed or inject my child with these ingredients often, as a schedule, obviously I'd put my daughter in harm's way... But what would legally happen to me?

Poison Control: Odd question... But **you'd likely be charged with criminal negligence... perhaps with intent to kill... and of course child abuse...** Your child would be taken away from you... Do you know of someone's who's doing this to their child? **This is criminal...**

Iris Figueroa: An industry... These are the ingredients used in vaccines... With binding agents to make sure the body won't flush these out... To keep the antibody levels up indefinitely...

Poison Control: WHAT?!

The man was beside himself. He asked if I would email him all this information. He wanted to share it with his adult kids who are parents. He was **horrified** and felt awful he didn't know... his kids are vaccinated and they have health issues...

~Iris Figueroa
